ANNUAL REPORT ON TOBACCO STATISTICS, 1940

Prepared by

the

Agricultural Marketing Service 1/

- - -

This is the fifth in a series of annual reports on tobacco statistics authorized and requested by Congress on August 27, 1935. The first three are United States Department of Agriculture Statistical Bulletins 58, 63, and 67; obtainable from the Superintendent of Documents, Government Printing Office, Washington, D. C., at 15 cents a copy. The fourth is a processed publication; obtainable from the Agricultural Marketing Service, U. S. Department of Agriculture, Washington, D. C.

1/ This bulletin has been compiled under the direction of a tobacco statistics committee representing the Agricultural Marketing Service, Bureau of Agricultural Economics, Office of Foreign Agricultural Relations, and Agricultural Adjustment Administration. The members of this committee are Charles E. Gage, chairman; J. V. Morrow, secretary; Marvin M. Sandstrom, John A. Hicks, O. C. Stine, L. A. Wheeler, and W. G. Finn. The compilations were made by Alice Wolfe, Claudia Thomson, Vivian M. Behenna, and Mary A. Malamphy.

CONTENTS

	<u>Page</u>
Introduction -----	1
Brief classification of leaf tobacco -----	3
Acres, production, and farm value:	
United States, by classes, types, and States -----	5
United States, total by States -----	12
Foreign, United States, and world production, totals -----	15
Foreign and United States, production of flue-cured -----	17
Prices, leaf:	
By seasons, types, and grades -----	18
Prices, products:	
Wholesale -----	31
Retail -----	32
Sales:	
By types and markets -----	33
Country sales -----	37
Income:	
Cash to growers, by classes and types -----	38
Analysis of cigar-leaf grades:	
Connecticut shade-grown -----	38
Stocks:	
Unstemmed and stemmed, total by quarters -----	40
Converted weight basis, by types and quarters -----	41
Conversion factors -----	54
By types and groups of grades, by quarters -----	55
Miscellaneous domestic -----	68
Foreign-grown cigar leaf in the United States -----	69
Foreign-grown cigarette and smoking tobacco in the United States -----	69
Consumption:	
Disappearance, farm-sales weight, by types -----	70
Leaf used in manufacture of products -----	73
Products manufactured -----	73
Tax-paid withdrawals by products and months, United States -----	74
Tax-paid withdrawals, by months, of products from the Philippine Islands -	75
Tax-paid withdrawals, by months, of products from Puerto Rico -----	76
Per capita, United States -----	77
International trade:	
Annual, by principal countries -----	78
Annual, by country of origin and destination -----	79
Exports:	
Leaf, by countries and types -----	95
Leaf, total by types, crop year -----	98
Leaf, total by types, calendar year -----	99
Products, total including shipments to noncontiguous territories -----	99
Imports:	
By classes and countries -----	100
By products and countries -----	101
Tariffs:	
Rates on imports into the United States -----	102
Foreign rates on imports from the United States -----	104
Taxes and revenue:	
Current rates of State tax, by products -----	108
Current rates of Federal tax, by products -----	110
State receipts -----	111
Internal Revenue receipts, by products -----	111
Agricultural Conservation Program:	
State acreage allotments -----	112

I N T R O D U C T I O N

This report is the fifth in a series of annual reports on tobacco statistics authorized and requested by Congress on August 27, 1935. The series presents a broad and comprehensive coverage of statistics on tobacco, with tables based on data gathered and compiled by the Department of Agriculture, together with tables compiled from reports of the Department of Commerce, the Bureau of Internal Revenue, the Bureau of Labor Statistics, and other official sources both in this country and abroad. The 5-year and annual tables are brought up to date in each report, and new tables are frequently added either to be continued in the series or covering some static phase of tobacco. Occasionally a table is omitted in a report as no additional data are available.

In the 1940 report a table has been included showing factors for converting reported stocks to a farm-sales-weight basis. These conversion factors previously have been incorporated in footnotes within the table on converted stocks. Tables have been added showing stocks of miscellaneous domestic and foreign-grown cigarette and smoking tobacco in the United States by quarters. A table also has been included showing current rates of Federal taxes on tobacco products, covering the increased rate levied in accordance with the National Defense program, and effective July 1, 1940. The table on weekly prices of leaf has been omitted from this report as this information is covered in more complete detail in the market reviews issued at the close of the marketing season for each class of tobacco; and the table on wages in manufacturing industries has been omitted because no new data are available.

The total production of tobacco in the United States in 1939 was 1,849 million pounds with a value of 285 million dollars as compared with a production of 1,376 million pounds in 1938 with a value of 269 million dollars. The increase in farm value of the 1939 crop was small in comparison with the increase in production. The important factors in this, based on an analysis by types, are to be found in flue-cured and Burley. Flue-cured production in 1939 was approximately 50 percent greater than in the previous year, but the farm value showed an actual decline. In Burley also there was a substantial increase in production though a smaller increase in value. In some types the situation was reversed, as for example, fire-cured and the cigar binder and wrapper types. Consumption of tobacco products as indicated by tax-paid withdrawals of cigarettes for the fiscal year beginning July 1939 were approximately 178 billion, an increase of 10 billion over the year beginning July 1938. Exports during the calendar year 1939, because of war conditions, were about 145 million pounds below those of 1938.

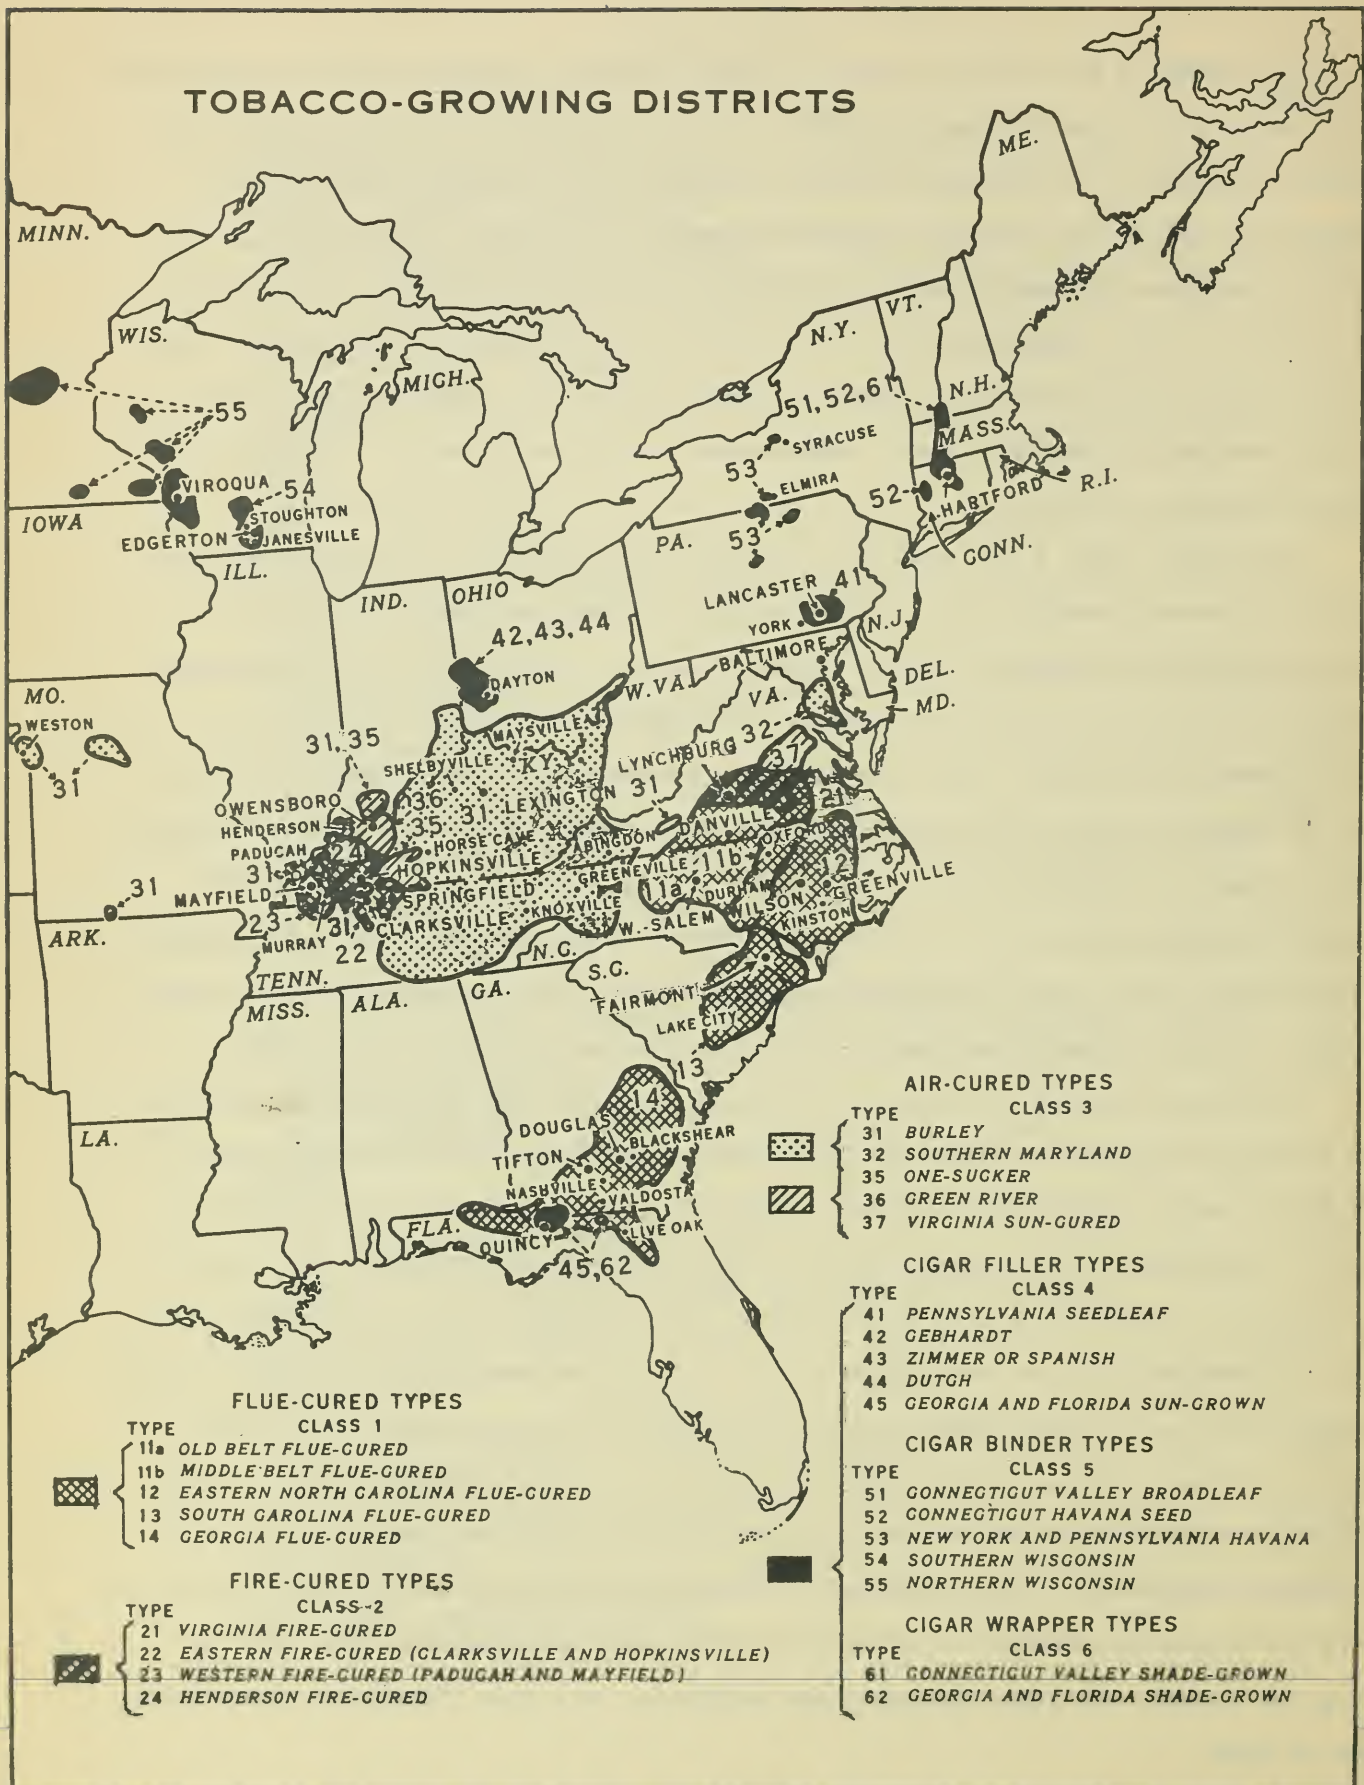

FIGURE 1

BRIEF CLASSIFICATION OF LEAF TOBACCO

(Covering classes, types, and groups)

CLASS 1, FLUE-CURED TYPES

Type 11: Old Belt flue-cured; produced in the Piedmont sections of Virginia and North Carolina.

Type 12: Eastern North Carolina flue-cured; produced in the coastal sections of North Carolina, north of the South River.

Type 13: South Carolina flue-cured; produced in the coastal sections of South Carolina and the southeastern counties of North Carolina, south of the South River.

Type 14: Georgia and Florida flue-cured; produced in southern Georgia and northern Florida.

Groups applicable to Types 11, 12, 13, and 14:

A, wrappers. B, leaf and smoking leaf.
C, cutters. X, lugs and primings. S, scrap.
N, nondescript.

CLASS 2, FIRE-CURED TYPES

Type 21: Virginia fire-cured; produced in the Piedmont and mountain sections of Virginia.

Type 22: Tennessee-Kentucky fire-cured, eastern district, Clarksville, Springfield, and Hopkinsville; produced in a section east of the Tennessee River, in southern Kentucky and northern Tennessee.

Type 23: Kentucky-Tennessee fire-cured, western district, Mayfield, Murray, and Paducah; produced in a section between the Tennessee, Ohio, and Mississippi Rivers in western Kentucky and northwestern Tennessee.

Type 24: Henderson Stemming or Northern fire-cured; produced in Webster, Hopkins, McLean, Union, and Henderson Counties of Kentucky.

Groups applicable to Types 21, 22, 23, and 24:

A, wrappers. B, heavy leaf. C, thin leaf.
X, lugs. S, scrap. N, nondescript.

CLASS 3, AIR-CURED TYPES

Type 31: Burley; produced in Kentucky, Tennessee, Ohio, Indiana, West Virginia, Virginia, North Carolina, and Missouri.

Groups applicable to Type 31:

A, wrappers. B, bright leaf, red leaf, and tips. C, lugs and cutters. X, trash and flyings. S, scrap. N, nondescript.

Type 32: Southern Maryland; produced in five counties of southern Maryland - Prince Georges, Anne Arundel, Calvert, Charles, and St. Marys.

Groups applicable to Type 32:

B, heavy leaf or dull crop. C, thin leaf or bright crop. X, seconds and ground leaves.
S, scrap. N, nondescript.

Type 35: One Sucker; produced in north-central Tennessee and south-central Kentucky.

Type 36: Green River; produced in the northern part of Kentucky in the territory adjacent to Owensboro and Henderson.

Type 37: Virginia sun-cured; produced in central Virginia, north of the James River.

Groups applicable to Types 35, 36, and 37:

A, wrappers. B, heavy leaf. C, thin leaf.
X, lugs. S, scrap. N, nondescript.

CLASS 4, CIGAR-FILLER TYPES

Type 41: Pennsylvania Seedleaf; produced in Lancaster County, Pa., and the adjoining counties.

Groups applicable to Type 41:

B, binders or tops. C, fillers (farm wrappers).
X, stemming grades. Y, farm fillers or ground leaves. S, scrap. N, nondescript.

Type 42: Gebhardt; produced in the Miami Valley section of Ohio and extending into Indiana.

Type 43: Zimmer; produced in the Miami Valley section of Ohio and extending into Indiana.

Type 44: Dutch; produced in the Miami Valley section of Ohio.

Groups applicable to Types 42, 43, and 44:

C, fillers (farm wrappers). X, stemming grades.
Y, farm fillers or ground leaves. S, scrap.
N, nondescript.

Type 45: Georgia and Florida sun-grown; produced in southwestern Georgia and north-central Florida.

Groups applicable to Type 45:

B, binders. C, fillers. X, stemming grades.
Y, ground leaves. S, scrap. N, nondescript.

Type 46: Puerto Rican sun-grown (including primed (Deshojado) and stalk-cut (Mata)); produced on the island of Puerto Rico.

Groups applicable to Type 46:

C, superior (tripas, medios, coronas, etc.).
X, inferior (pie inferior, tripa inferior, pajizas, rezagos, etc.). Y, defectuoso (boliche, sentido, cacho duro, amarillo, salchochado, etc.).
S, scrap (pedazos and picadura). N, nondescript (averiado and mohoso).

CLASS 5, CIGAR-BINDER TYPES

Type 51: Connecticut Broadleaf; produced in the Connecticut Valley sections of Connecticut and Massachusetts.

Type 52: Connecticut Havana Seed; produced in the Connecticut and Housatonic Valley sections of Connecticut and Massachusetts.

Type 53: New York and Pennsylvania Havana Seed; produced in the Big Flats and Onondaga sections of New York, and extending into Pennsylvania.

Groups applicable to Types 51, 52, and 53:

A, wrappers. B, binders, seconds, and brokes.
C, fillers and short darks. X, stemming grades. Y, sand-leaf fillers or ground leaves.
S, scrap. N, nondescript.

Type 54: Southern Wisconsin; produced in Wisconsin, south and east of the Wisconsin River.

Type 55: Northern Wisconsin; produced in Wisconsin, north and west of the Wisconsin River, and in eastern Minnesota.

Groups applicable to Types 54 and 55:

B, binders. C, fillers. X, stemming grades.
Y, sand-leaf fillers or bottom leaves.
S, scrap. N, nondescript.

CLASS 6, CIGAR-WRAPPER TYPES

Type 61: Connecticut Shade; produced in the Connecticut Valley sections of Connecticut and Massachusetts.

Type 62: Georgia and Florida Shade; produced in southwestern Georgia and north-central Florida.

Groups applicable to Types 61 and 62:

A, wrappers. B, stout wrappers and binders.
C, fillers or tips. X, filler brokes.
S, scrap. N, nondescript.

MISCELLANEOUS TYPES OF DOMESTIC TOBACCO

Type 71: Eastern Ohio (flue-cured, fire-cured, or air-cured).

Type 72: Louisiana Perique.

Type 73: All domestic types of tobacco not otherwise classified.

FOREIGN TYPES

Type 81: Cuba (Havana).

Type 82: Sumatra and Java.

Groups applicable to Types 81 and 82:

A, wrappers. C, fillers. S, scrap.

Type 83: Philippine Islands (Manila).

Groups applicable to Type 83:

C, fillers. S, scrap.

Type 84: All foreign-grown cigar leaf not otherwise classified.

Type 90: Foreign-grown cigarette tobacco (Turkish and other).

1937 ..	85,900	1,223	105,066	18.1	19,004:1940	:					

1/ Crop value represents production multiplied by average price per pound. The term is used to avoid confusion with "income" as shown on a calendar-year basis in table 10 and in the multilith publication, Income Parity for Agriculture, pt. I, sec. 2.

2/ Subject to revision.

3/ Including loss after harvest as a result of hurricane and flood estimated as follows: Broadleaf (type 51) 3,820,000 pounds; Havana Seed (type 52) 1,547,000 pounds; and Shade (type 61) 588,000 pounds. Price and value apply only to the marketable portion of the crop.

1/ Crop value represents production multiplied by average price per pound. The term is used to avoid confusion with "income" as shown on a calendar-year basis in table 10 and in the multilith publication, Income Parity for Agriculture, pt. I, sec. 2.

2/ Including loss after harvest as a result of hurricane and flood estimated as follows: Massachusetts - 1,258,000 pounds, and Connecticut - 4,697,000 pounds. Price and value apply only to the marketable portion of the crop.

3/ Subject to revision.

1/ The year beginning July includes the harvesting season in both Northern and Southern Hemispheres. In Northern Hemisphere, data for 1935, for example, are for crops harvested in summer and fall of 1935; in Southern Hemisphere they are for crops harvested in spring of 1936. For many countries bordering on the Equator, harvest started late in 1935 and was completed in early months of 1936. Countries listed in this table produce approximately 95 percent of the tobacco of the world.

2/ Preliminary. Figures for earlier years may be revised on basis of later information.

3/ Data shown are for 20 Provinces only, but missing data are of slight importance. Data for 1938 are for 14 provinces, only.

4/ British India and reporting native States. Data, 1937, are exclusive of Burma, which became independent from British India in April, 1937.

5/ European production and native production of Blad tabak (high grade leaf) bought up by European estates from natives plus official estimate of exports of native-grown Krossok (low grade leaf) produced off estates.

6/ Including China.

Bureau of Agricultural Economics. Compiled from official sources, International Institute of Agriculture, and reports of United States consuls, commercial attaches, agricultural attaches, and commodity specialists in foreign countries.

1/ Production data are available for 95 geographic divisions of the world. In addition, it is known that tobacco is grown in several countries where the quantity grown is small and no report is made. These countries for which the harvesting periods have been reported produce approximately 90 percent of the world's tobacco.

2/ About 85 percent harvested in the period November-April.

3/ About 80 percent harvested in the period October-December.

Bureau of Agricultural Economics. Compiled from official sources, and reports of United States consuls, commercial attaches, agricultural attaches, and commodity specialists in foreign countries.

1/ Estimated production of other types, by countries, are omitted from this publication pending a possible reclassification in certain important producing countries.

2/ The year beginning July includes the harvesting season in both Northern and Southern Hemispheres. In Northern Hemisphere, data for 1935, for example, are for crops harvested in summer and fall of 1935; in Southern Hemisphere they are for crops harvested in spring of 1936. For many countries bordering on the Equator, harvest started late in 1935 and was completed in early months of 1936.

3/ Preliminary. Data for earlier years may be revised on basis of later information.

4/ Estimated.

5/ Smaller crop resulted from unfavorable weather, parasites, and diseases, which destroyed much of the area set.

6/ Of this amount, a portion was produced from flue-cured seed but was sun-cured.

7/ Grown in Java.

8/ Incomplete. Production for a few countries, included in other years, not available for 1939.

Bureau of Agricultural Economics. Compiled from official sources, reports of United States consuls, commercial attaches, agricultural attaches, and commodity specialists in foreign countries.

Table 5.-Season average prices per 100 pounds of tobacco, by types and grades, on representative markets, 1935-39 - Cont'd

1/ Key to standard grade marks for flue-cured tobacco:

<u>Group</u>	<u>Quality</u>	<u>Color</u>	<u>Special factor</u>
A, wrappers.	1, choice.	L, lemon.	V, greenish tinged.
B, leaf.	2, fine.	F, orange.	M, mixed.
H, smoking leaf.	3, good.	R, mahogany.	K, off color.
C, cutters.	4, fair.	D, dark red.	U, unsound.
X, lugs.	5, low.	G, green.	W, doubtful keeping order.
P, primings.	6, common.		
N, nondescript.			

2/ Prices are not exactly comparable with prices for following years, as figures have not been rounded.

3/ Comparable figures are not available for 1938.

4/ Beginning 1936, averages based on auction sales and Association deliveries at advance prices.

5/ Key to standard grade marks for fire-cured tobacco:

<u>Group</u>	<u>Quality</u>	<u>Color</u>	<u>Length</u>	<u>Special factor</u>
A, wrappers.	1, choice.	L, light.	46, 24 to 28 inches.	V, greenish tinged.
B, heavy leaf.	2, fine.	F, brown.	45, 20 to 24 inches.	K, variegated.
C, thin leaf.	3, good.	D, dark.	44, 16 to 20 inches.	U, unsound or damaged under 20 percent.
T, short leaf.	4, fair.	M, mixed.		W, doubtful keeping order.
X, lugs.	5, low.	G, green.		
N, nondescript.				

6/ Key to standard grade marks for Burley tobacco:

<u>Group</u>	<u>Quality</u>	<u>Color</u>	<u>Special factor</u>
A, wrappers.	1, choice.	L, buff or straw.	V, greenish tinged.
B, leaf.	2, fine.	F, tan.	M, mixed.
T, tips.	3, good.	R, red.	K, variegated.
C, lugs or cutters.	4, fair.	D, dark red.	W, doubtful keeping order.
X, flyings.	5, low.	G, green.	
N, nondescript.		(L) light shade.	U, unsound or damaged under 20 percent.
		(F) medium shade.	
		(R) dark shade.	

7/ Prior to 1936 tip grades were indicated by special factor or length.

8/ Key to standard grade marks for dark air-cured tobacco:

<u>Group</u>	<u>Quality</u>	<u>Color</u>	<u>Length</u>
B, heavy leaf.	1, choice.	L, light.	46, over 24 inches.
T, tips.	2, fine.	F, brown.	45, 20 to 24 inches.
C, thin leaf.	3, good.	R, red.	44, 16 to 20 inches.
X, lugs.	4, fair.	D, dark.	
N, nondescript.	5, low.	M, mixed.	
		G, green.	

9/ No government grading.

Note: Tables on weekly average prices by types and grades are omitted from the 1940 annual report as such tables are included in the tobacco market reviews issued at the close of the marketing season for each type. Copies of the tobacco market reviews, by types, will be sent upon request to the Agricultural Marketing Service, Washington, D. C.

^{1/} Prices were obtained from approximately 4 dealers in each of 32 large cities as of the 15th of the month, for the brand and/or package size most in demand in their stores, and have been weighted by population of the metropolitan areas and of adjacent areas, where the retail prices were obtained. Sales taxes are included wherever applicable. Retail prices of cigars represent an average of cigars selling for 5 cents or less.

^{2/} Pricing of cigarette tobacco and plug discontinued after March 1939.

^{3/} Preliminary.

Bureau of Agricultural Economics. Compiled from reports of the Bureau of Labor Statistics, Department of Labor.

1/ Subject to revision.

2/ Classified as 11(a) in 1938-39, and as 11(b) in 1939-40.

3/ One warehouse not included for 1939.

4/ Includes Association deliveries at advance prices.

5/ Market discontinued.

6/ Includes estimate of resales.

7/ Gross sales.

8/ Includes Camp Taylor, Ky.

9/ No sales of Burley.

10/ No market.

11/ Sales represent a combination of hoghead sales on the Baltimore market and direct sales between grower and dealer; in 1939 include also auction sales on the Hughesville and Upper Marlboro markets.

12/ In addition to the warehouse auction sales of the 1939 crop it is estimated that from 35 to 40 million pounds of scrap were sold by growers outside regular auction channels at an approximate average of \$2.00 per hundred. Sales of scrap of the 1938 crop were nearly 7½ million pounds at an average of around \$2.00 per hundred.

13/ Includes estimated producers' sales for type 31.

Compiled from reports of State departments of agriculture; tobacco growers' association reports; trade reports; and information received direct from markets and from field representatives.

1/ For factors used in converting various weights, see table 14. For earlier data and for more detailed information on weight losses, see U. S. Department of Agriculture Circular 435, Tobacco Shrinkages and Losses in Weight in Handling and Storage, issued in July 1937.

2/ Figures are sums of Types 22 and 23.

3/ In converting Burley stocks to farm-sales weight, a conversion factor of 1.10 was applied to 350 million pounds of the unstemmed stocks, and the regular conversion factor of 1.12 to the balance. This computation takes into account the lower redrying losses of the 1938 crop and the quantity of the 1939 crop reported on a green-weight basis.

4/ Figures are sums of Types 42, 43, and 44.

5/ Stocks on the island of Puerto Rico are not included.

6/ Figures are sums of Types 54 and 55.

Table 14.-Conversion factors for adjusting for losses in weight incident to stemming, handling, sweating, and drying, all types of tobacco

Type	Factors to multiply by to convert various weights				
	U.S.	Stemmed		Unstemmed	
	type	Stemmed to	To	To	processing

1/ Data for earlier years are published in the First Annual Report on Tobacco Statistics, Statistical Bulletin No. 58, Bureau of Agricultural Economics, and succeeding annual reports.

2/ Stocks as of July 1 and disappearance beginning July 1. Stocks of types 45 and 62 not separated prior to 1929.

3/ Stocks shown represent those held by dealers and manufacturers who are required by law to file quarterly reports. Farm-sales weight is calculated by converting stemmed to unstemmed and storage weight to farm-sales weight, by allowing for normal losses of dirt, sand, moisture, and stem in handling and preparing tobacco.

4/ Preliminary.

5/ Stocks as of January 1 of year following production, and disappearance beginning January 1 of year following production.

6/ Production and price compiled from annual reports of the Governor of Puerto Rico; stocks are as of January 1 following production and include stocks held by dealers and manufacturers both in the United States and on the Island of Puerto Rico. Stocks on the Island not reported prior to January 1, 1936.

7/ Including loss after harvest as a result of hurricane and flood estimated as follows: Broad-leaf (type 51) 3,820,000 pounds; Havana Seed (type 52) 1,547,000 pounds; and Shade (type 61) 588,000 pounds.

Bureau of Agricultural Economics. Production, stocks, and price compiled from reports of the Agricultural Marketing Service.

Table 20.-Leaf tobacco used in the manufacture of cigars, cigarettes, and tobacco and snuff in the United States, 1934-38 ^{1/}

Year	Cigars		Cigarettes		Tobacco and snuff	Total
	Large	Small	Large	Small		
	1,000 lb.	1,000 lb.	1,000 lb.	1,000 lb.	1,000 lb.	1,000 lb.
1934	110,203	920	882	374,501	289,024	775,530
1935	113,066	676	14	399,444	262,732	775,932
1936	125,875	703	12	453,315	267,462	847,367
1937	127,880	773	19	479,943	264,309	872,924
1938	118,162	590	14	483,826	262,710	865,302

^{1/} The quantities given are unstemmed processing-weight equivalent of all kinds of tobacco used. Stemmed leaf and scraps, etc., used in manufacturing have been converted to unstemmed equivalent at the ratio of 3 pounds stemmed to 4 pounds unstemmed.

Compiled from annual reports of the Commissioner of Internal Revenue.

1/ Pounds of cigars and cigarettes represent unstemmed equivalent of tobacco used in the manufacture of these products, as reported in the annual reports of the Commissioner of Internal Revenue. Both large and small cigars and large and small cigarettes are included.

2/ Tax-paid withdrawals of manufactured tobacco have been separated into chewing tobacco and smoking tobacco in proportion to production of these two products.

3/ Preliminary.

Bureau of Agricultural Economics. Compiled from tax-paid withdrawals in the United States (including tax-paid withdrawals of tobacco products from the Philippine Islands and Puerto Rico) reported in monthly statements by the Commissioner of Internal Revenue, and July population from reports of the Bureau of the Census.

1/ The export statistics in this table are on the basis of crop years. Crop years are as follows: Flue-cured, year beginning July; Maryland, year beginning January of year following production; all other types, year beginning October. These figures do not include shipments to Puerto Rico; no shipments were made to Alaska and Hawaii.

2/ Preliminary. 3/ Includes Hong Kong and Kwantung.

4/ Beginning May 6, 1938, the United States trade with Germany includes Austria; for comparable figures in earlier years add Austria and Germany. 5/ Exclusive of Algeria, Tunisia, and Madagascar.

6/ Includes Gold Coast, Nigeria, and other British West Africa. 7/ Includes Canary Islands.

8/ Includes Eastern Ohio, type 71. 9/ Includes 1,682,000 pounds to Germany.

10/ Black Fat, Water Baler, and Dark African are composed principally of fire-cured and One Sucker tobacco, which have been treated with oils and greases, packed in boxes, bales, and tierces, and subjected to heavy pressure. Approximate percentages are two-thirds One Sucker and one-third fire-cured. In some cases a small amount of flue-cured might be substituted for that portion of one of the other types. 11/ Exclusive of Mozambique. 12/ Exclusive of Bermuda, Barbados, Jamaica, Trinidad and Tobago. 13/ Less than 500 pounds.

Bureau of Agricultural Economics. Compiled from Monthly Summary of Foreign Commerce of the United States and official records of the Bureau of Foreign and Domestic Commerce. Export weight.

^{1/} Rates are as of August 1, 1940.

^{2/} Tobacco imported from the Philippine Islands is free of duty except that imports of the following items from the Philippines after December 31, 1939, in excess of the specified quotas shall pay the duty applicable to imports from countries other than Cuba:- Original quotas are for the calendar year 1940 and for each calendar year thereafter through the calendar year 1945, each of said quotas shall be the same as the corresponding quota for the immediately preceding calendar year, less 5 per centum of the corresponding original quota. The original quota for cigars (exclusive of cigarettes, cheroots, and paper cigars and cigarettes including wrappers) two hundred million cigars. The original quota for scrap tobacco, and stemmed and unstemmed filler tobacco described in paragraph 602 of the Tariff Act of 1930, four million five hundred thousand pounds. For the period January 1, 1946, through July 3, 1946, each of said quotas shall be one-half of the corresponding quota specified for the calendar year 1945.

^{3/} This rate was established by the Netherlands Trade Agreement, which became effective February 1, 1936. From that date until June 30, 1936, the rate on unstemmed wrapper tobacco was \$1.875, and on stemmed wrapper tobacco, \$2.525. The present reduced rates on this tobacco have been in effect since July 1, 1936.

^{4/} The rate was reduced under the Trade Agreement with Turkey, effective May 5, 1939.

^{5/} The rate was reduced under the Trade Agreement with the United Kingdom, effective January 1, 1939.

Continued -

Table 34.-Tariff rates on tobacco and tobacco products imported into the United States; established by the Tariff Act of 1930, and subsequent changes - Cont'd

6/ Under the treaty of commercial reciprocity concluded between the United States and Cuba in 1902, which is continued in effect by section 316 of the Tariff Act of 1930, imports of Cuban tobacco into the United States are entitled to a reduction of 20 percent from the prevailing rate paid by any other country. The only exception to this rule was the Cuban Trade Agreement of September 3, 1934, which established specific rates for certain classes of tobacco; the tobacco concessions of this agreement were terminated March 16, 1936. The rates above listed for tobacco from Cuba have been computed by applying the 20 percent preferential reduction first to the rates established in the Tariff Act of 1930, and, for the present rate, to the reduced rates granted by existing Trade Agreements with other countries.

7/ From September 3, 1934, to March 16, 1936, the rate on unstemmed wrapper tobacco was \$1.50 per pound under the Cuban Agreement; the Agreement also provided that total imports of tobacco and tobacco products from Cuba were subject to a quota of 18 percent of tobacco used in manufacture of cigars in the United States during preceding year. With the termination of tobacco concessions in the Cuban Agreement, the Cuban duty became based on the new rates established under the Trade Agreement with the Netherlands. From February 1 until June 30, 1936, the Netherlands rate was \$1.875 per pound; after that date it was further reduced to \$1.50. The Cuban duty for both periods became 20 percent less than the Netherlands rate. The Supplementary Trade Agreement with Cuba, effective December 23, 1939, did not change this rate.

8/ Under the Netherlands Trade Agreement, effective February 1, 1936, the rate on stemmed wrapper tobacco was reduced to \$2.525 per pound for the period February 1 to June 30, after which a further reduction to \$2.15 per pound was made. The Cuban duty in the earlier period and at the present time, is 20 percent less than that established in the Netherlands agreement.

9/ Reduced as a result of the Trade Agreement with Turkey, effective May 5, 1939, in which the rate on unstemmed cigarette leaf, n.s.p.f. became 30 cents per pound.

10/ Under the Cuban Agreement, from September 3, 1934, to March 16, 1936, the rate on unstemmed filler tobacco (including cigarette leaf n.s.p.f.) was set at 17½ cents per pound, and on stemmed filler tobacco at 25 cents per pound; total imports of Cuban tobacco and tobacco products during this period were subject to a quota of 18 percent of tobacco used in manufacture of cigars in the United States during the preceding year. With the termination of tobacco concessions in the Cuban Agreement, the rates returned to the 1930 Tariff Act level. The Supplemental Cuban agreement, effective December 23, 1939, restored the rates of the original Cuban Agreement on filler tobacco except that the rate on unstemmed cigarette leaf n.s.p.f. was not changed. The Supplemental Cuban agreement limits the application of reduced rates on stemmed or unstemmed filler tobacco (other than cigarette leaf) and scrap tobacco to a total quantity of 22,000,000 pounds (unstemmed equivalent) in any calendar year, imports in excess of this quantity becoming subject to duty as if not mentioned in the Supplemental Agreement but not to rates higher than those in effect just prior to the original Cuban agreement.

11/ Reduced as a result of the Trade Agreement with the United Kingdom, effective January 1, 1939, in which the rate on tobacco, manufactured or unmanufactured n.s.p.f. became 35 cents per pound.

12/ Under the Cuban Trade Agreement, from September 3, 1934, to March 16, 1936, the rate on scrap tobacco was set at 17½ cents per pound, and on cigars and cheroots of all kinds at \$2.25 per pound plus 12½ percent ad valorem; total imports of Cuban tobacco and tobacco products during this period were subject to a quota of 18 percent of tobacco used in manufacture of cigars in the United States during the preceding year. With the termination of tobacco concessions in the Cuban Agreement, the rates returned to the 1930 Tariff Act level. The Supplemental Cuban Agreement restored these rates to their level under the original Cuban agreement and established the quota on scrap and filler tobacco described in a preceding footnote.

13/ Under the Cuban Trade Agreement, from September 3, 1934, to March 16, 1936, the rate on cigarettes was set at \$2.25 cents per pound plus 12½ percent ad valorem, with a quota limit on total imports of tobacco and tobacco products from Cuba of 18 percent of tobacco used in manufacture of cigars in the United States during the preceding year. With the termination of the tobacco concessions in the Cuban Agreement, this rate returned to the 1930 Tariff Act level. The Trade Agreement with the United Kingdom, effective January 1, 1939, reduced the rate on cigarettes to \$2.25 cents per pound plus 12½ percent ad valorem, and the present Cuban rate is derived from this latter duty.

1/ Conversions into United States currency made at average annual exchange for 1939 (Canadian dollar = 96.02 cents) and official rate for 1940 (Canadian dollar = 90.9090 cents). 2/ Provided that the duty shall be levied on the basis of "Standard leaf tobacco" consisting of 10 percent of water and 90 percent of solid matter. 3/ Special excise tax, 3 percent of the duty-paid value, in effect since April 7, 1932, removed on April 26, 1939, under terms of second trade agreement with Canada. This tax did not apply to raw leaf tobacco when imported by licensed tobacco or cigar manufacturers. 4/ British preferential tariff rate on this type of tobacco, 20 and 30 cents per pound on unstemmed and stemmed, respectively. 5/ Effective June 25, 1940, a war exchange tax of 10 percent ad valorem was imposed on all imports except those entered under the British preferential tariff; on August 1, 1940, all Canadian raw leaf tobacco when sold for consumption became subject to an excise tax of 10 cents per pound actual weight.

1/ Conversions into United States currency made at average exchange, January-June, 1939; September 1939, and official exchange rate for 1940.

2/ Practically all imports in this class.

3/ Existing margin of preference to Empire countries bound, under trade agreement with the United Kingdom, effective January 1, 1939. Under the Ottawa Agreements Act, 1932, Empire leaf tobacco was assured a margin of preference over foreign leaf of 2s.0½d. per pound until August 1942.

Office of Foreign Agricultural Relations. Compiled from Board of Trade Journal, official publications of the United Kingdom and Canada, and information furnished by the Division of Foreign Tariffs, United States Bureau of Foreign and Domestic Commerce.

This tabulation brings to date table 27 in First Annual Report on Tobacco Statistics (with basic data), Statistical Bulletin No. 58 and table 32 in the Annual Report on Tobacco Statistics, 1939. Countries where no changes in duties have occurred since publication of the 1939 Annual Report are not included. For most of the countries included in these tables, tobacco imports have been made subject to other forms of restriction, including control of exchange for the payment of imports, import license, prohibition, etc.

Table 36.-Rates of State tax on tobacco products in effect July 1, 1940 - Cont'd

State	Date tax : first went : into effect:	Product and rate of tax
Tennessee	1925	Cigars, cheroots, stogies, etc., retailing for - (a) 3-1/3 cents each or less, \$1 per thousand. (b) More than 3-1/3 and not more than 5 cents each, \$2 per thousand. (c) More than 5 and not more than 9 cents each, \$3 per thousand. (d) More than 9 and not more than 10 cents each, \$5 per thousand. (e) More than 10 and not more than 20 cents each, \$10.50 per thousand. (f) More than 20 cents each, \$13.50 per thousand. Weighing not more than 3 pounds per 1,000, 1 cent for each 10 or fraction thereof. Cigarettes, retailing for - (a) 1 cent each or less, 1 1/2 mills each. (b) More than 1 cent each, 15 percent of retail price. Smoking and chewing tobacco and snuff, 5 percent of retail price.
Texas	1931	Cigarettes weighing more than 3 pounds per 1,000, \$3.60 per thousand. Weighing not more than 3 pounds per 1,000, \$1.50 per thousand.
Utah	1923	Cigarettes weighing more than 3 pounds per 1,000, 2 mills each. Weighing not more than 3 pounds per 1,000, 1 mill each. Papers, 1/2 cent for each 50 or fraction thereof. Tubes, 1 cent for each 50 or fraction thereof.
Vermont	1937	Cigarettes, 1 mill each.
Washington	1935	Cigarettes, retailing for - (a) 1 cent each or less, 1/10 cent each. (b) More than 1 cent each, 20 percent of retail price.
Wisconsin	1939	Cigarettes weighing more than 3 pounds per 1,000, 2 mills each. Weighing not more than 3 pounds per 1,000, 1 mill each. Papers, 1/2 cent for each 50 or fraction thereof. Tubes, 1 cent for each 50 or fraction thereof.

Compiled from report of proceedings, Thirteenth Annual Convention of the National Tobacco Tax Conference, Oct. 5-7, 1939.

Table 37.-Rates of Federal tax on tobacco products in effect in the United States, July 1, 1940 ^{1/}

Product	Rate of tax
Cigars weighing more than 3 pounds per 1,000, retailing for -	
(A) 5 cents each or less	\$2 per thousand
(B) More than 5 and not more than 8 cents each	\$3 per thousand
(C) More than 8 and not more than 15 cents each	\$5 per thousand
(D) More than 15 and not more than 20 cents each	\$10.50 per thousand
(E) More than 20 cents each	\$13.50 per thousand
Weighing not more than 3 pounds per 1,000	\$ 0.75 per thousand
Cigarettes weighing more than 3 pounds per 1,000	\$ 7.80 per thousand ^{2/} ^{3/}
Weighing not more than 3 pounds per 1,000	\$ 3.25 per thousand ^{3/}
Papers	1/2 cent for each 50 or fraction thereof
Tubes	1 cent for each 50 or fraction thereof
Smoking and chewing tobacco and snuff	18 cents per pound

^{1/} As imposed by the Internal Revenue Act of Feb. 26, 1926.

^{2/} The Revenue Act of May 10, 1934, amended the Revenue Act of Feb. 26, 1926, to provide that if cigarettes weighing more than 3 pounds per 1,000 were more than 6 1/2 inches in length they should be taxable at the rate imposed on cigarettes weighing less than 3 pounds per 1,000, counting each 2 3/4 inches or fraction thereof of the length of each as one cigarette.

^{3/} Rate effective July 1, 1940, changed tax on large cigarettes from \$7.20 to \$7.80, and on small cigarettes from \$3.00 to \$3.25.

Compiled from internal revenue laws of the United States.
